SUMMARY

"Part Analyst, Part Builder" - equally adept at solving business problems through data and building scalable data systems. 3.5+ years of driving outcomes for billion-dollar retail, e-commerce, and consumer brands across customer, product, and marketing analytics. Deep expertise in SQL, Excel, and analytics platforms, with a growing edge in Python, AI tools and workflow automation. Consistently recognized for ownership, speed, and cross-functional impact.

EXPERIENCE

Acadia.io

Senior Business Data Analyst

Business Data Analyst

Atlanta, GA, USA (Remote)

Feb. 2026 – Present

Apr. 2024 – Jan. 2026

- Owned **analytics across customer, product, and marketing domains for 4+ enterprise clients** - from mid-market e-commerce brands to billion-dollar retailers with 500+ store locations.
- Reduced operational reporting time by over 80%** by building multiple automated KPI tracking, anomaly detection, and data reporting systems using SQL, Excel, and Streamlit, and scaling them across multiple clients.
- Delivered a 3+ p.p. lift in retention and positive YoY reactivation growth** by designing customer and store segmentation frameworks that powered targeted CRM campaigns aligning with store-focused strategies.
- Measured **incremental lift across multi-channel CRM & Loyalty campaigns** — from holdout design and A/B testing to mid-flight targeting adjustments, analyzing performance across response rates, spend, channel mix, and customer segments.
- Built **scalable Snowflake data pipelines processing millions of PII-sensitive records** across multiple clients — ensuring data cleanup, validation, and compliance. Developed data processes powering **customer contactability and lifecycle tracking models** that enabled self-serve analytics for leadership and non-technical stakeholders through ThoughtSpot.
- Delivered **deep-dive analyses** spanning client data onboarding (data share validation, anomaly detection), customer behavior (cross-shopping, loyalty re-engagement), geo-spatial strategy (trade-area clustering, store closure impact modeling), and commercial performance (booking patterns, competitive benchmarking) — **surfacing actionable growth opportunities**.
- Mentored two interns to full-time conversion**; received a performance-based salary hike within five months and an early promotion to Senior Analyst - consistently recognized for ownership, speed, and cross-functional impact (peer and leadership testimonials on Page 2).

SWIGGY

Business Analyst

Bangalore, IN (Remote)

Sept. 2022 – Apr. 2024

- Supported the central team driving conversion, customer strategy, and growth, for one of India's largest food-delivery platforms** - delivering analytics across user behavior, funnel performance, and business KPIs.
- Boosted team productivity by ~35%** through automating daily operational trackers using spreadsheets, SQL, and Python - **enabling real-time KPI monitoring instead of a 1-Day lag**.
- Led cross-functional data projects that drove a **~15K daily user traffic increase, 7.8% dormant user win-back**, and measurable fraud reduction.
- Built an **automated workflow to track storefront asset performance for identifying creative fatigue and recommending timely changes** to improve customer engagement and conversion.

Analytics CEO   9:01 PM

Hey **Nikhil**, I wanted to take a minute to thank you for your efforts. I know how hard you are working, in terms of breadth, depth, new ideas, improvements, mentorship, etc etc. I could go on and on!

Your effort and contribution are a significant positive impact on some of Acadia's top clients and on the Analytics BU, including a positive impact on BU financials (client retention, team resourcing)

Senior Manager Analytics gave a **Super Taco Sticker** worth 2 tacos to **@Nikhil**

A huge #cando #curiosity shoutout to **Nikhil** 🍌🌟

For being an unrelenting force — not just on **Bealls**, but across Pod 3.

The sheer volume of work you're handling (and delivering with precision and aplomb) is honestly mind-blowing.

If **Nikhil** steps into a project, you can go sip a piña colada because IT. WILL. BE. DONE. 🍹🔥

Thank you for being a rock-solid pillar for Pod 3 and all of Acadia. We're lucky to have you!

#candor #curisoity #community #cando #candormunosity !!

Same rockstar, different days! What can I say about **Nikhil's** growth, simply stupendous.

Let's start with Mentoring, handling a beast like **Bealls** almost single handedly, building Campaign repositories, getting onboarded on almost 3 new clients in 3 weeks AND Delivering, picking up and killing it on a tool overnight. **Nikhil** can and will deliver anything :D

No challenge can overshadow your capability and efforts, and we are so for you to be growing with us!

#cando #community to **@Nikhil** for diving deep into Fresh Thyme with some seriously impressive investigative work! I'm so excited to be working on a client with you! Your work is incredibly clear, easy to follow, and packed with insight. Even in the short time we've worked together, it's clear you go above and beyond as a standard. Huge kudos to you and all that you do! 🍌🍌🍌🍌🍌

#cando #community #curiosity 🍌🍌🍌🍌🍌 to **@Nikhil** for being an absolute dependable and accountable rock for the team. I can always trust you to produce the finest possible output and also to lead automation like no one else! Great going buddy and really excited to see what

Manager - Analytics  Aug 14th at 8:35 AM

Do you want to know what *real* accountability and ownership look like?

Some urgent tasks were assigned by the client for delivery the next day. The Account Management team officially assigned them at around 4 AM IST. I woke up, ready to start at 8 AM IST to tackle them... only to find that the work was already *done*

Nikhil had:

- Anticipated the tasks before they were even assigned
- Finished them to perfection *before* the AM team sent them over

I can't help but marvel at the kind of ownership he brings to **Bealls** or any other client he touches.

When you work with someone who blends *crazy talent, raw power, and immense ownership* like this, you can't help but feel inspired and push yourself to be your best.

So here's a #cando and #community shoutout to our unsung hero — **@Nikhil**! 🍌🍌🍌🍌🍌🍌

#curiosity #cando #community 🍌🍌🍌🍌🍌 to **@Nikhil** for literally 'overnight' figuring out Alteryx and building a complete new workflow from scratch! Yes, he learnt the tool and built something new in just a few hours, for a task, that was not even his. Speaks volumes about curiosity, community and most of all an unwavering cando spirit 😊

Lucky to have you in the team 😊

Hey **Nikhil**,

You've been absolutely crushing it—no matter how many curveballs we throw your way, you keep showing up with focus, calm, and results. It's been amazing to see you grow across so many dimensions, and every time I notice that, I can't help but think back to that fateful day we first met you. Safe to say, we got really lucky.

Thank you for everything you do—and more importantly, for being such an integral part of our team. We're so glad to have you with us. #cando #community
